Dear Mr. McFester

Jan Marvil and I and all of the Y.W.C.A. International Evening Committee want to thank you and all of the Orceida dancers for your special contribution to the evening.

We feel that the evening was a wonderful success in promoting understanding of other cultures and we feel that your remarks and dances lent a unique spirit. It was moving to see Hong Kong students and Jao-tian refugees join in the dances. We regret that more people were not there to feel the spirit of friendship.

Our heart felt thanks to all of you. Liz Hocking of the International Student Organization at U.W.G.B. gave me the following addresses for you to contact about performing your dances for people.
