Grant Agency
1000 Street
New York, New York

Dear (Grant Agency):

The Oneida Indian Historical Society has recently been incorporated to collect and preserve historical and educational materials of the Oneida Nation in Wisconsin. Programs are planned for a historical traveling museum exhibition, and in developing an archival library with research facilities.

Each project will require funding in all phases, and the Society is requesting information on your agency's granting activities, particularly where they might concern support of archival-historical projects, publications, and historical museum presentations.

If descriptive materials and application forms are available, we would be interested in receiving copies from you.

Thank you in advance.

Sincerely,

L. Gordon McLester
Director
Oneida Indian Historical Society
